WHOLE LIFE PET CARE O2 HOUSE

CURADLE O2 BROODER

CURADLE PET O2 BROODER 90

CURADLE O2 Brooder 90 is
an exclusive oxygen chamber and brooder
which can be used for **your pet from birth to the age when they require life-sustaining care.**

- **40%** — The oxygen chamber maintains up to 40% oxygen concentration
- Compatible with oxygen concentrators and tanks
- Nebulizer functionality
- LED mood lights
- Heating
- Clean air filter

* The oxygen concentrator, oxygen tank, and nebulizer are not included.
* The air filter replacement cycle may vary depending on the environment and usage conditions.

Your pets need regular treatment, even at home...

- Pets with illnesses such as pneumonia, heart disease, or pulmonary edema
- Pets that are hypoventilating immediately after birth
- Pets with severe separation anxiety that are difficult to leave at a hospital
- Pets you don't want to be apart from
- Pets that need life-sustaining care at home

Gift your pet **CURADLE** care to keep them healthy for longer!

- **A house** under normal circumstances
- **A heated home** during winter
- **A treatment chamber** when sick
- **A postnatal care chamber** for after giving birth
- **A life-sustaining care chamber** for their final moments

CURADLE O2 BROODER
serves as a warm home
for the entirety of a pet's life.

Researchers with 15 years of experience and technology in the field of **incubators designed the ideal oxygen chamber** for pets.
This was then **verified by veterinarians** for added safety.

VS

Provide proper oxygen treatment with the CURADLE O2 BROODER!

1 An AI-controlled oxygen concentration system to aid pet recovery

An AI device controls the **ventilation automatically** creating a safe oxygen treatment environment. **The oxygen concentration can be increased up to 40%.** An AI **alarm system notifies you of oxygen deficiency**, making it easy to ascertain the oxygen status.

* Oxygen concentration control range: 21-40%

(The 40% oxygen concentration measurement applies when the chamber is empty.)

* A cold concentrator can be installed at a maximum distance of approximately 10 meters.

2 Nebulizer connection interface

A hose compatible with various nebulizers on the market is provided. No treatment mask is necessary, as medicine mixes naturally into the internal air. Pets do not feel stifled inside the device, allowing them to **relax as they are treated**.

Safe silicone material
Uses RoHS-approved materials

Can be used simultaneously with oxygen treatment
Oxygen treatment and nebulizer treatment can be performed simultaneously, increasing the effectiveness

3 Automatic temperature control to help maintain body temperature

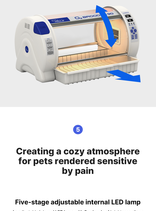
CURADLE O2 Brooder allows for minute temperature control
(1°C increments/decrements).
It also automatically maintains the temperature at the desired setting.
A centralized heating method offers an environment suitable for **pets, newborn animals, and pregnant animals.**

* Temperature control range: Ambient - 38°C

4 Easy care allows for simple, clean management

Do away with hair and dust! Clean air filter

An **internal air filter** filters out hair, dust, and other foreign substances to provide only clean air to your pet.
The filter is made from a fine mesh and is **washable for convenience**.



An easy-to-clean detachable tray and sliding window
A washable detachable tray and sliding window make **cleaning even simpler**.

5 Creating a cozy atmosphere for pets rendered sensitive by pain

Five-stage adjustable internal LED lamp

An adjustable **internal LED lamp with five levels** of brightness allows you to provide **easy care to your pets, even in the dark.**

Soundproofing for sound-sensitive pets

Soundproofing creates a cozy, silent environment to help your **pets relax**.

6

Maximum space efficiency with a design optimized for pets

It doubles as a smart house!

The **high cylindrical container** will make small and medium-sized pets feel comfortable inside, so it can be used as an **exclusive space just for your pet**.

Build rack for stacking

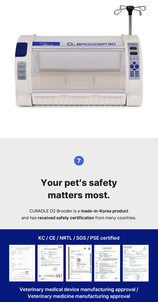
Use the **build rack to stack another CURADLE O2 Brooder on top**. This is great for **caring for multiple animals at hospitals and animal shelters**

* Build rack sold separately.

Secondary tray

A **Secondary tray** can be attached inside as a **litter box for cats, a birthing box, etc.**

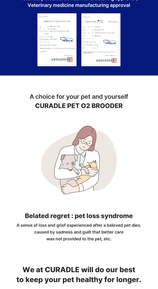
* Secondary tray sold separately.



Ringer holder

A holder can be attached for pets that need to have **medical fluids administrated**. Made of stainless steel, the holder comes with four hooks which are **hygienic and foldable for convenience**.

* Ringer holder sold separately.



7
