

Love of life begins here, with Rcom products

Product name	Rcom MAX 20
Manufacturer	AUTOELEX
Brand	Rcom
Model	MX-20
Origin	MADE IN KOREA

DIGITAL INCUBATOR

Rcom

Ranked TOP!!

Credit evaluation in the global incubators market

By FACT. MR, research agency in Ireland

High-reliability incubator for hatching of rare birds

Rcom MAX 20

Artificial intelligence incubator

Automatic Temperature & Humidity control

Adjusting the temperature for hatching, are you worried?
Rcom MAX 20, which has been applied AUTOELEX's very one and only long-standing incubation technology carefully checks and adjusts the set temperature and humidity.

Automatic egg-turning function

Rcom MAX 20 turns automatically according to the settings and low-noise stepping egg-turning motor.

* Egg-turning stop setting necessary 3 days before hatching day.

Universal tray + Divider set included

A universal tray + divider set is included which can be used by adjusting the divider interval according to the egg size, so can hatch a various eggs at once.

* Small egg tray, standard egg tray, large egg tray, rolling divider sold separately.

Slide plate with embossed feature for preventing skid

The egg-turning plate where the newborn bird steps on is embossed with an anti-slip treatment to prevent leg deformity.

FND Display

You can check various information through the large FND window.

Alarm when water need replenishing and buzzer with abnormal conditions

There is no need to check the water shortage often. Rcom MAX 20 notifies you when water is low, so you can easily determine the condition and alarm sounds when abnormal temperature occurs.

* Incubation data memory function and power outage notification function in case of power failure.

High-reliability incubator for hatching of rare birds

Incubation environment except for general poultry is controlled automatically.

Body locking device

The main body can be easily detached for convenient cleaning

Double-glazed view window

Double-glazed view window for minimizing the influence of outside temperature.

Hatchery egg

Hatchery egg means fertilized egg for incubation. Hatchery egg should be fertilized egg, but it does not mean every fertilized egg can be hatched.

Hatching result can be different from egg condition. For being a good hatchery egg, mother birds need to be under good nutritious state.

Also, eggs should be incubated before 7 days passed after laid out. It's better to keep at the place with temperature of 10-16°C and 70% humidity avoiding direct ray of light before start incubation. Eggs with cracks on eggshell, abnormal shape or eggs with contaminated eggshell are not good as hatchery eggs.

Fertilized Egg

Fertilized egg is an egg laid by mating a hen and a cock. So, it can become a chicken.

Unfertilized Egg

Unfertilized egg is an egg we generally eat. As an unfertilized egg is laid by a hen alone, it cannot become a chicken.

SPECIFICATION

Name	Rcom MAX 20
Model NO.	MX-20
Capacity	Universal egg tray + Divider (Different from the species of egg)
Temp. Control	Automatic
Temp. Limits	20 ~ 42°C / 68 ~ 107.6°F
Humi. Control	Automatic
Humi. Limits	20 ~ 70% (It can be changed according to the conditions)
Egg-turning	Automatic (Egg-turning stop setting necessary 3 days before hatching day)
Display	FND
Power	AC 100-120V, 50/60Hz / AC 220-240V, 50/60Hz
Power consumption	MAX. 65W / Average 48W
Size	(W)500 x (L)410 x (H)160mm
Weight	4.5kg(N.W.) / 5.5kg(G.W)

BASIC PRODUCT INFORMATION

Manufacturer	AUTOELEX CO., LTD.
Country of manufacture	KOREA

* You will be asking for service charge if you are in below cases.

- Broken or Problem caused by 'No cleaning' or 'Improper handling'
- Broken or problem caused by 'Not using distilled water'
- Broken or problem caused by 'Trying Bird brooding in incubator' (Please don't try bird brooding in incubator. Please use Brooder during bird brooding.)
