

Love of life begins here, with Rcom products

Rcom PRO+10
PX-10P

Product name	Rcom PRO PLUS 10
Manufacturer	AUTOELEX
Brand	Rcom
Model	PX-10P
Origin	MADE IN KOREA

Ranked TOP!!

Credit evaluation in the global incubators market

By FACT. MR, research agency in Ireland

Creation of most valuable life birth

Rcom PRO+ 10

Evolution of digital incubator

High-class design
Superior egg shaped design with 360° wide view window

Detachable controller
One touch detachable electric controller

Candling zone (EZ Candler)
The world's first incubator included egg Candler, External egg Candler is unnecessary.

LCD / Various information offering
Wide LCD screen shows all hatching information

Clean air filter
Built-in Air filter filter out dust and impurities.

Air circulation & Egg turning disk
Rcom's patent technology is applied to the incubator for optimum temperature setting and convenient egg turning.

Low noise of Egg turning
Egg turning noise is innovatively decreased because of turning motor speed control.

High-reliability incubator for hatching of rare birds
Incubation environment except for general poultry is controlled automatically.

Includes Egg Tray that holds 10 Chicken/Duck Eggs or 20 Quail/Small Exotic Eggs

Water hole for manual humidification
Water can be supplied to the incubator easily.

APS (Automatic Humidification Pumping System)
Humidification is controlled automatically by APS.

Rcom PRO+ 10's unique egg candling system

The world's first incubator included egg candler, External egg candler is unnecessary.

* This is a scene created to help consumers understand.
 * Observe it with the light switched off, for example, in a dark room by day.

Automatic egg-turning and stop function

Rcom PRO+ 10 automatically adjust the egg-turning according to the set bird. and low-noise stepping egg-turning motor.

Optimum incubation conditions with bird selecting

You can easily set up incubation environment, and there is no need for additional setup or management other than adding water to maintain humidity.
Rcom's patent technology is applied to the incubator for optimum temperature setting and convenient egg turning.

APS (Automatic Pumping System)

Humidification is controlled automatically by APS.

Cooling control cycle setup function

What is the cooling control cycle setup function?

It is an implementation of times like when a hen is not brooding the eggs away for feeding,
a function that cools down for the set time out of 24 hours a day.

Natural cooling provides the environment which is most similar to the conditions in chicken hatching.

(Periodic cooling helps to achieve hatching successfully, but prior knowledge may be required to perform cooling control functions.)

Clean Air-filter without worrying about feather dust or foreign matter after hatching

Built-in air filter out dust and impurities. (* Insert air filter 3 days before hatch.)

It can be used several times with dense filter material and it easy to clean water.

You can incubate various sized eggs

Egg tray which can simultaneously store different types of eggs.

Buzzer with abnormal conditions

Rcom PRO+ 10 notifies you when abnormal temperature occurs.

High-reliability incubator for hatching of rare birds

Incubation environment except for general poultry is controlled automatically for learners, hobbyists or manias.

Large view window to observe eggs

View window for minimizing the influence of outside temperature.

🐔 Hatchery egg

Hatchery egg means fertilized egg for incubation. Hatchery egg should be fertilized egg, but it does not mean every fertilized egg can be hatched.

Hatching result can be different from egg condition. For being a good hatchery egg, mother birds need to be under good nutritious state.

Also, eggs should be incubated before 7 days passed after laid out. It's better to keep at the place with temperature of 10~16°C and 70% humidity avoiding direct ray of light before start incubation. Eggs with cracks on eggshell, abnormal shape or eggs with contaminated eggshell are not good as hatchery eggs.

Fertilized Egg

Fertilized egg is an egg laid by mating a hen and a cock. So, it can become a chicken.

Unfertilized Egg

Unfertilized egg is an egg we generally eat. As an unfertilized egg is laid by a hen alone, it cannot become a chicken.

Rcom 10 series function comparison

Name	PRO PLUS 10	PRO 10	ECO PLUS 10
			
Temperature	Automatic	Automatic	Manual
Humidity	Automatic	Manual	Manual
Egg-turning	Automatic	Automatic	Automatic (MUST STOP the egg turning function 3 DAYS BEFORE the D-Day)
Display	LCD	LCD	LED
Candling function	O	O	X
Cooling control	O	O	X
Air filter	O	O	O
Dome light(LED)	O	O	X

* The PRO model does not included the APS. By installing the additional APS(Sold seperately) it can be used as PRO PLUS model.

SPECIFICATION

Name	Rcom PRO PLUS 10
Model NO.	PX-10P (APS Included)
Capacity	Chick egg size 10EA, Quail egg size 30EA
Temp. Control	Automatic
Temp. Limits	20 ~ 42℃ / 68 ~ 107.6°F
Humi. Control	Automatic
Humi. Limits	20 ~ 70% (It can be changed according to the conditions)
Egg-turning	Automatic (0 ~ 360 ° range)
Display	LCD
Power	12V Adaptor
Power consumption	MAX. 36W / Average 21W
Size	(W)259 x (L)236.5 x (H)172mm
Weight	1.5kg(N.W.) / 2.5kg(G.W)

BASIC PRODUCT INFORMATION

Manufacturer	AUTOELEX CO., LTD.
Country of manufacture	KOREA

* You will be asking for service charge if you are in below cases.

- Broken or Problem caused by 'No cleaning' or 'Improper handling'
- Broken or problem caused by 'Not using distilled water'
- Broken or problem caused by 'Trying Bird brooding in incubator' (Please don't try bird brooding in incubator. Please use Brooder during bird brooding.)
- Broken or problem caused by 'Wrong controlling(Using)'
- Broken or Problem caused by using the machine out of User's Manual.
- Broken or problem caused by 'Customer's mistake or fault'

* Successful hatching depends on many numbers of factors. Neither Autoelex (Rcom) nor its global distributors and vendors can be held responsible for loss of life or property damage caused by user neglect, alteration, modification or painting, change of use or power failure. To avoid errors, mishaps and danger, carefully check this User Manual before initial use. Also please check the manual regularly to ensure your operation of the machine is correct.
